

**Radcliffe, Harry Quinten (Harry), 4th Platoon**

22 May 1945 - 8 June 2013

Beachwood Cemetery, MI

Harry Quentin Radcliffe is the beloved husband of Nancy (Dozier) devoted father of Amy Byerle (Lee) and Laurel Schwartz (Michael), loving grandfather of six grandchildren and brother of Robert and Thomas. Harry was born in Norfolk, VA on May 22, 1945 and lived all over the world as his father was a Chaplain in the Navy for 32 years. He graduated from Vanderbilt University on a US Navy scholarship. He received school honors in academic achievement in engineering and a prestigious award in military performance while learning how to fly a private plane. Harry met Nancy at university and they were married December 30, 1968. After a few years of marriage, Nancy and Harry had daughter Amy and four years later, daughter Laurel.

After flying A-4 jets in the Marine Corps for 6 years, Harry became a test pilot with Lockheed Aircraft International, later known as Lockheed Martin Corporation. Lockheed soon realized that Harry had other talents besides flying that involved technical support, contract writing and management skills. The family followed him as his successful career developed, living all over the world. He was manager/president of companies in Singapore (6 years), California (4 years), Malaysia (7 years) and Argentina (3 years). The family moved to Washington DC in 1997 and Harry retired from Lockheed after 25 years. Too restless to settle down, he soon found work with two other companies, finally retired and moved to Philadelphia in 2010. Harry often volunteered to support his church, friends, family and communities. In Philadelphia, he continued flying patients needing medical support with Angel Flight East, as flying and helping others were a lifelong joy. Harry made a positive impact on countless people all over the world with his willing attitude to help others "fix" anything that needed to be done. He loved solving problems and was often seen holding a shovel or hammer in order to "make the world a better place."

**USMC Resume:**

The Basic School Class 1-68 Alpha Company, 4<sup>th</sup> Platoon, Jun-Nov 1967

**Personal Reflections about Harry Radcliffe:**
